

# DUBLIN FAMILY TREE

---

The Dublin family goes back many generations, but we have begun our descendency with Felix and Mary Dublin. Felix Dublin, (commonly known as Pop Felix), born 1886 in Alabama and Mary (Taylor) Dublin, born 1891 in Alabama were married in 1907. The couple had a total of nine children!

This Tree Chart is currently comprised primarily of branches of family extended from this ancestral couple. The roots of a tree do not grow in straight lines. They're sprawling with many twist and turns, and constant new growth. But, in the interest of "keeping it simple" we've started with just direct descendants, current spouses and offspring. Also, because this Tree chart is posted on a public website, we chose not to include surnames beyond the 1<sup>st</sup> generation.

**Keep in mind, the Tree is a work-in-progress and this is just the starting point.** As you continue to give us feedback it will branch out, but we just want to make sure we are getting the basic information right first. And despite our best efforts, we realize some of the information **STILL** may not be completely accurate. Please do not take offense if you were not included, or misrepresented in some way.

If you see something that needs to be corrected, make your changes on this copy and send back to us. Please include your name and contact # as well, so we can reach out to you with any follow-up questions. After each set of revisions, the Tree will be re-posted on the website and available for download. Thank you!
